PERMIT NO. 15906

5. The water appropriated shall be limited to the quantity which can be beneficially used, and shall not exceed 0.3 cubic foot per second by direct diversion from January 1 to December 31 of each year. The instantaneous rate of diversion may exceed said rate provided the amount of water appropriated by direct diversion shall not exceed 19 acre-feet in any month (equivalent to a continuous flow of 0.3 cfs). The amount of water appropriated be storage shall not exceed 88 acre-feet per annum, to be collected between October 1 of each year and April 30 of the succeeding year. The maximum rate of diversion to off-stream storage shall not exceed 1.35 cubic feet per second.

6. The maximum quantity herein stated may be reduced in the license if investigation warrants.

7. Actual construction work shall begin on or before December 1, 1970, and shall thereafter to prosecuted with reasonable diligence, and if not so commenced and prosecuted this permit may be revoked.

8. Said construction work shall be completed on or before December 1, 1975.

9. Complete application of the water to the proposed use shall be made on or before December 1, 1985.

10. No extensions of time beyond December 1, 1985, to complete application of the water to the proposed use shall be allowed without a hearing before the State Water Resources Control Board.

11. Progress reports shall be filed promptly by permittee on forms which will be provided annually by the State Water Resources Control Board until license is issued.

12. All rights and privileges under this permit, including method of diversion, method of use and quantity of water diverted, are subject to the continuing authority of the State Water Resources Control Board in accordance with law and in the interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of diversion of said water and to carry out legally established water quality objectives.

13. Permittee shall allow representatives of the State Water Resources Control Board and other parties, as may be authorized from time to time by said Board, reasonable access to project works to determine compliance with the terms of this permit.

14. Permittee shall install and maintain an outlet pipe of adequate capacity in his dam as near as practicable to the bottom of the natural stream channel, or provide other means satisfactory to the State Water Resources Control Board, in order that water entering the reservoir or collected in the reservoir during and after the current storage season may be released into the downstream channel to the extent necessary to satisfy downstream prior rights.

(005 0043)

~~5. The water appropriated shall be limited to the quantity which can be beneficially used, and shall not exceed~~

15. In accordance with the requirements of Water Code Section 1393, permittee shall clear the site of the proposed reservoir of all structures, trees, and other vegetation which would interfere with the use of the reservoir for water storage and recreational purposes.

(0120050)

16. Construction of the dam shall not be commenced until the Department of Water Resources has approved plans and specifications.

(0360048)

This permit is issued and permittee takes it subject to the following provisions of the Water Code:

Section 1390. A permit shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code), but no longer.

Section 1391. Every permit shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a permit is issued takes it subject to the conditions therein expressed.

Section 1392. Every permittee, if he accepts a permit, does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any permit granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any permittee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any permittee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).
